SEP 2022 — PRESENT

Wearing multiple hats in a young fintech startup. Collaborating with a team of highly skilled folks and shipping at lightning speeds.

- Heading multiple verticals. Some of these are INR Checkout, Invoicing, API Experience, etc. Have driven products end to end, starting from research to drafting requirements, designing and overseeing execution.
- Have also done a lot of non-core-UX stuff:
 - Setup dashboard instrumentation from scratch for Xflow
 - Setup no-code processes reduce engineering dependencies
 - Dabbled in motion and 3D design for various projects

SEP 2020 — SEP 2022

Worked with multiple Fortune 500 clients across domains. The longest engagements were with Intel and Samsung.

JUL 2018- DEC 2020

Worked across multiple design domains including UX, architecture, branding and Industrial Design. The clientele being mostly early-stage startups -- Oris & Soma.

JAN 2017 - JUL 2017

Interviewed 30+ people and documented several processes of a native wood craft — likhai. Co-authored the only comprehensive document existing for the apparently lost wood craft.

JAN 2014 - JUL 2014

Researched vehicular density and conducted traffic analysis along a proposed route in Delhi. Later, worked with Transport Planners to design and develop the said corridors and presented the design to the Lieutenant Governor of Delhi.
